Desktop Wallpaper Calendars: August 2014

Design - *Smashing Magazine*

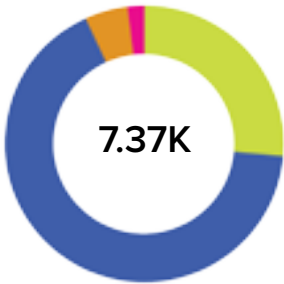

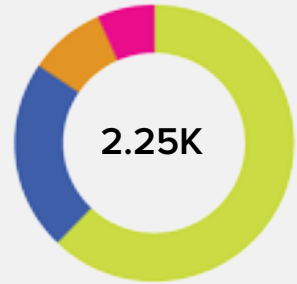

This post features free desktop wallpapers created by artists across the globe for August 2014. Both versions with a calendar and without a calendar can be downloaded...

GitHub's CSS

Dev - *CSS-Tricks*

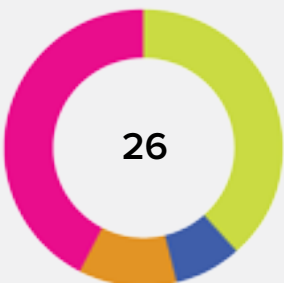

I'm always interested in the development details of other products, particularly their styleguides and approach to CSS. Given my penchant for the otherwise inane CSS details, I decided to write a bit about GitHub's CSS.

Samsung Galaxy S4 Catches Fire and Melts...

Tech - *Mashable*

Texas teen Ariel Tolfree received a rude awakening when her Samsung galaxy S4 smartphone caught fire overnight, as she slept next to it, according to a new report...

A social web standard, the rise of "sadvertising"

PR - *Shel Holtz*

The World Wide Web Consortium has announced it will develop a standard way to build social network operations into the Web, including adding friends, commenting...

The Crazy Things People HAD to Share on Snapchat

Humour - *Smosh*

Snapchat has a reputation as a sexting app for irresponsible teens, but in reality it's mostly people sending pics of themselves making weird faces...
